

# NEW HORIZON COLLEGE OF ENGINEERING

## ALUMNI ASSOCIATION

AND

## DEPARTMENT OF CIVIL ENGINEERING

Jointly organized

### ALUMNI TALK ON 'ENTREPRENEURSHIP VS EMPLOYMENT: DESIGNING YOUR OWN SUCCESS'

**DATE:** 04-10-2024

**VENUE:**B-219

#### **BRIEF DESCRIPTION OF THE EVENT:**

The Department of Civil Engineering and Alumni Association jointly organized "ALUMNI TALK" on 'ENTREPRENEURSHIP VS EMPLOYMENT: DESIGNING YOUR OWN SUCCESS' 4th October 2024 from 2 pm to 3 pm. The Alumni speaker for the event was Mr. Adrian Dias, of batch 2017. He is a seasoned civil engineer with extensive experience in the construction industry and expert in Luxury Construction, currently serving on the board of directors at Chithra Constructional Consortium. In addition to this leadership role, he is also a successful entrepreneur, owning a tech firm that drives innovative solutions in Elysian Technologies, as well as an electric vehicle manufacturing company that aims to contribute to the sustainable mobility revolution at ElysianMotorsports. His diverse expertise spans engineering, technology, and manufacturing, making them a dynamic force in modern industry development.

The Speaker motivated the students with the challenges of being an entrepreneur and employee. The session was very interesting and interactive. Many successful entrepreneurs start as employees, gathering experience and insights along the way. Many employees are exploring entrepreneurial ventures as a side hustle, proving that everyone can have the best of both worlds.

#### **Conclusion:**

Whether you identify more with the entrepreneurial spirit or the employee hustle both paths have their unique perks and challenges.

**NO. OF PARTICIPANTS:** 40 Nos
